

March 2023

Dear Parents/Carers,

As part of our Science and Geography topics next half term, we will be learning about the water cycle and the important role it plays in many different things.

To engage the children in this, we have arranged a visit to the Water treatment works in Ewden. This is a half day trip which will allow the children to be introduced to the water cycle, look at how the impurities are removed from water, have a guided tour of the site and take part in some interactive sessions.

The session will be on Tuesday 27th April and will run from 9.45am – 11.45am. The children will leave school at 9am and be back for their lunch.

Your child will need to wear school uniform, sensible footwear and a waterproof coat.

We are asking for a £3.00 contribution towards the cost of the mini bus.

Please log on to Arbor to give your consent before Friday 21st April. Please make payment on Parent Pay. Contributions will need to be received before Friday 21st April.

Yours sincerely

Mrs Alison Bradbury

Headteacher
