

Year 2 - Autumn 1

I can count forwards and backwards to 100 in 1's.

By the end of this half term, children should be able to count forwards and backwards to 100 **confidently**, **easily and quickly**.

Perhaps start using a 100 square (see below) and as confidence grows, try without any aides. Also try starting at different numbers and asking your child to continue counting on from e.g. 15.

1	2	3	4	5	6	7	8	9	10	
11	12	13	14	15	16	17	18	19	20	Key Vocabulary
21	22	23	24	25	26	27	28	29	30	Sort Count
31	32	33	34	35	36	37	38	39	40	How many
41	42	42	44	45	4.6	67	4.9	40	50	1-100
41	42	43	44	45	40	47	40	41	50	Numbers
51	52	53	54	55	56	57	58	59	60	Forwards
61	62	63	64	65	66	67	68	69	70	Backwards
	-									Careful counting
71	72	73	74	75	76	77	78	79	80	
81	82	83	84	85	86	87	88	89	90	
91	92	93	94	95	96	97	98	99	100	

<u>Advice</u>

The secret to success is practising little and often. Can you practise these Super Powers while walking to school or during a car journey? You don't need to practise them all at once.

Practical Maths

Use everyday opportunities to count – make it fun! At a park, count steps, jumps or swings. Use nature – count animals or listen for sounds (like birds) and count the sounds they make.

Use interactive resources such as Splat 100 square https://www.primarygames.co.uk/pg2/splat/splatsq100.html

Year 2 - Autumn 2

I can count forwards and backwards from different starting points in 1's and 10's. I can count in 2's, 5's and 10's.

By the end of this half term, children should know the following facts. The aim is for them to recall these facts **instantly**.

For example –					
6	7			10	

What numbers will you say if you count back from 58?

58	54
----	----

Can you continue with the number pattern to count in 10's to find the missing numbers?

5	15	25		45	
64	54		34		14
	21	31	41		61
76			46	36	26
13		33	43		63

How many turnips will there be in 8 baskets? There are 5 pineapples in each crate. The shop sells 6 crates. How many pineapples do they sell? There are 10 potatoes in a sack. Emma wants 90 potatoes. How many bags does she need to buy?

How many shoes are there?

How many fingers and thumbs altogether?

<u>Advice</u>

The secret to success is practising little and often. Can you practise these Super Powers while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

Year 2 - Spring 1

I know doubles and halves of numbers to 20. I know near doubles to 10.

By the end of this half term, children should know the following facts. The aim is for them to recall these facts **instantly**.

Doubles to 20	<u>Halves</u>	Near doubles
0 + 0 = 0	half of 20 = 10	0 + 1 = 1
1 + 1 = 2	half of 18 = 9	1 + 2 = 3
2 + 2 = 4	half of 16 = 8	2 + 3 = 5
3 + 3 =6	half of 14 = 7	3 + 4 = 7
4 + 4 = 8	half of 12 = 6	4 + 5 = 9
5 + 5 = 10	half of 10 = 5	5 + 6 = 11
6 + 6 = 12	half of $8 = 4$	6 + 7 = 13
7 + 7 = 14	half of $6 = 3$	7 + 8 = 15
8 + 8 = 16	half of $4 = 2$	8 + 9 = 17
9 + 9 = 18	half of 2 = 1	9 + 10 = 19
10 + 10 = 20		10 + 11 = 21

They should be able to answer these questions in any order, including missing number questions, e.g. $4 + \bigcirc = 8$ or $\bigcirc + 10 = 19$.

<u>Advice</u>

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

<u>Pronunciation</u> – Make sure that your child is pronouncing the numbers correctly and not getting confused between thirteen and thirty.

<u>Songs and Chants</u> – You can buy CDs or find songs and chants online. If your child creates their own song, this can make the facts even more memorable.

Playing games can make learning facts fun to learn:

<u>http://www.conkermaths.org/cmweb.nsf/products/conkerkirfs.html</u> See how many questions you can answer in 90seconds. <u>https://www.topmarks.co.uk/maths-games/daily10</u> and <u>https://www.topmarks.co.uk/maths-games/hit-the-button</u>

Year 2 - Spring 1

I can use bridging and compensation for addition to 10+10.

7 + 4 = 11	Bridging 10	4 + 7 = 11	Compensation
7 + 5 = 12	7 + 4 = ?	5 + 7 = 12	6 + 9 = ?
	7 + 3 = 10, then		6 + 10 = 16,
8 + 3 = 11	1 more makes	3 + 8 = 11	then take away
8 + 4 = 12	11	4 + 8 = 12	1 = 15
8 + 5 = 13		5 + 8 = 13	
8 + 6 = 14	8 + 5 = ?	6 + 8 = 14	8 + 9 = ?
	8 + 2 = 10, then		8 + 10 = 18,
9 + 3 = 12	3 more makes	3 + 9 = 12	then take away
9 + 4 = 13	13	4 + 9 = 13	1 = 17
9 + 5 = 14		5 + 9 = 14	
9 + 6 = 15	9 + 6 = ?	6 + 9 = 15	7 + 9 = ?
9 + 7 = 16	9 + 1 = 10, then	7 + 9 = 16	7 + 10 = 17,
	5 more makes		then take away
	15		1 = 16

They should be able to answer these questions in any order, using the most efficient strategy.

<u>Advice</u>

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

Pronunciation – Make sure that your child is pronouncing the numbers correctly and not getting confused between thirteen and thirty.

Make the whole fact family -1f 9 + 4 = 13, then 4 + 9 = 13 so 13 - 9 = 4 and 13 - 4 = 9.

https://www.topmarks.co.uk/maths-games/daily10 and https://www.topmarks.co.uk/maths-games/hit-thebutton

Year 2 – Spring 2

I know the multiplication and division facts for the 2 times table.

By the end of this half term, children should know the following facts. The aim is for them to recall these facts instantly.

0 x 2 = 0	0 ÷ 2 = 0	Key vocabulary
1 x 2 = 2	2 ÷ 2 = 1	
2 x 2 = 4	4 ÷ 2 = 2	What is 3 times 2?
3 x 2 = 6	6 ÷ 2 = 3	What is 2 multiplied by 22
4 x 2 = 8	8 ÷ 2 = 4	
5 x 2 = 10	10 ÷ 2 = 5	What is 4 groups of 2?
6 x 2 = 12	12 ÷ 2 = 6	
7 x 2 = 14	14 ÷ 2 = 7	What is 18 divided by 2?
8 x 2 = 16	16 ÷ 2 = 8	W/h at is 20 shows d h at us are
9 x 2 = 18	18 ÷ 2 = 9	what is 20 shared between
10 x 2 = 20	20 ÷ 2 =10	2:
11 x 2 = 22	22 ÷ 2 = 11	What is 12 divided into
12 x 2 = 24	24 ÷ 2 = 12	groups of 2?

They should be able to answer these questions in any order, including	missing number questions, e.g. $2 \times \bigcirc = 14$
or () ÷ 2 = 6.	

<u>Advice</u>

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

<u>Pronunciation</u> – Make sure that your child is pronouncing the numbers correctly and not getting confused between thirteen and thirty.

<u>Times Table Rockstars</u> – Children all have their username and password to practice in the "Garage" and the "Arena". They could try playing in the "Studio" but remember these will be any questions up to 12x12.

<u>Songs and Chants</u> – You can buy Times Tables CDs or find multiplication songs and chants online. If your child creates their own song, this can make the times tables even more memorable.

<u>Test the Parent</u> – Your child can make up their own tricky division questions for you e.g. What is 18 divided by 2? They need to be able to multiply to create these questions.

<u>Apply these facts to real life situations</u> – How many hands are in your house? What other multiplication and division questions can your child make up?

<u>http://www.conkermaths.org/cmweb.nsf/products/conkerkirfs.html</u> See how many questions you can answer in 90seconds. <u>https://www.topmarks.co.uk/maths-games/daily10</u> and <u>https://www.topmarks.co.uk/maths-games/hit-the-button</u>

Year 2 – Summer 1

I know the multiplication and division facts for the 10 times table.

By the end of this half term, children should know the following facts. The aim is for them to recall these **facts instantly**.

	instantiy.	
Key vocabulary	$0 \div 10 = 0$	0 x 10 = 0
What is 3 times 10?	10 ÷ 10 = 1	1 x 10 = 10
What is 2 multiplied by 102	20 ÷ 10 = 2	2 x 10 = 20
What is 2 multiplied by 10?	30 ÷ 10 = 3	3 x 10 = 30
What is 4 groups of 10?	40 ÷ 10 = 4	4 x 10 = 40
	50 ÷ 10 = 5	5 x 10 = 50
What is 60 divided by 10?	60 ÷ 10 = 6	6 x 10 = 60
	70 ÷ 10 = 7	7 x 10 = 70
What is 40 shared between	80 ÷ 10 = 8	8 x 10 = 80
IOr	90 ÷ 10 = 9	9 x 10 = 90
What is 70 divided into	100 ÷ 10 =10	10 x 10 = 100
groups of 10?	$110 \div 10 = 11$	11 x 10 = 110
	120 ÷ 10 = 12	12 x 10 = 120

They should be able to answer these questions in any order, including missing number questions, e.g. $10 \times \bigcirc = 80$ or $\bigcirc \div 10 = 6$.

Advice

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

<u>Pronunciation</u> – Make sure that your child is pronouncing the numbers correctly and not getting confused between thirteen and thirty.

<u>Times Table Rockstars</u> – Children all have their username and password to practice in the "Garage" and the "Arena". They could try playing in the "Studio" but remember these will be any questions up to 12x12.

<u>Songs and Chants</u> – You can buy Times Tables CDs or find multiplication songs and chants online. If your child creates their own song, this can make the times tables even more memorable.

<u>Test the Parent</u> – Your child can make up their own tricky division questions for you e.g. What is 70 divided by 7? They need to be able to multiply to create these questions.

<u>Apply these facts to real life situations</u> – How many toes are in your house? What other multiplication and division questions can your child make up?

http://www.conkermaths.org/cmweb.nsf/products/conkerkirfs.html See how many questions you can answer in 90seconds.

https://www.topmarks.co.uk/maths-games/daily10 and https://www.topmarks.co.uk/maths-games/hit-thebutton

Year 2 – Summer 1

I know the multiplication and division facts for the 5 times table.

By the end of this half term, children should know the following facts. The aim is for them to recall these **facts instantly.**

Key vocabulary	5 ÷ 5 = 1	0 x 5 = 0
What is 3 times 5?	10 ÷ 5 = 2	1 x 5 = 5
What is 2 multiplied by 52	15 ÷ 5 = 3	2 x 5 = 10
what is 2 multiplied by 5?	20 ÷ 5 = 4	3 x 5 = 15
What is 4 groups of 5?	25 ÷ 5 = 5	4 x 5 = 20
	30 ÷ 5 = 6	5 x 5 = 25
What is 60 divided by 5?	35 ÷ 5 = 7	6 x 5 = 30
	40 ÷ 5 = 8	7 x 5 = 35
What is 40 shared between	45 ÷ 5 = 9	8 x 5 = 40
51	50 ÷ 5 =10	9 x 5 = 45
What is 70 divided into	55 ÷ 5 = 11	10 x 5 = 50
groups of 5?	60 ÷ 5 = 12	11 x 5 = 55
		12 x 5 = 60

They should be able to answer these questions in any order, using the most efficient strategy.

<u>Advice</u>

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

<u>Pronunciation</u> – Make sure that your child is pronouncing the numbers correctly and not getting confused between thirteen and thirty.

<u>Times Table Rockstars</u> – Children all have their username and password to practice in the "Garage" and the "Arena". They could try playing in the "Studio" but remember these will be any questions up to 12x12.

<u>Songs and Chants</u> – You can buy Times Tables CDs or find multiplication songs and chants online. If your child creates their own song, this can make the times tables even more memorable.

<u>Test the Parent</u> – Your child can make up their own tricky division questions for you e.g. What is 70 divided by 7? They need to be able to multiply to create these questions.

<u>Apply these facts to real life situations</u> – How many toes are in your house? What other multiplication and division questions can your child make up?

http://www.conkermaths.org/cmweb.nsf/products/conkerkirfs.html See how many questions you can answer in 90seconds.

https://www.topmarks.co.uk/maths-games/daily10 and https://www.topmarks.co.uk/maths-games/hit-thebutton

Year 2 – Summer 2

I can count in 3s to 36.

By the end of this half term, children should know the following facts. The aim is for them to recall these **facts instantly.**

<u>Advice</u>

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.
