Vision Statement

Our vision is for Redscope Primary School to be a stimulating, safe and respectful learning environment, where all members of our community work in partnership to achieve the best for every child. This vision includes our desire to make our learning environments accessible to all our learners and school community. The purpose of this plan is to show how Redscope Primary School aims to develop and improve the accessibility of our school for disabled pupils, staff, parents /carers and visitors. As a school we are required under the Equality Act 2010 to have an accessibility plan.

The definition of disability according to this Act is: A person has a disability if— (a) The person has a physical or mental impairment, and (b) The impairment has a substantial and long-term adverse effect on the person's ability to carry out normal day-to-day activities. Equality Act 2010 CH1 section 6 <http://www.legislation.gov.uk/ukpga/2010/15/section/6>

Redscope Primary School will endeavour to ensure that there is no discrimination in relation to the accessibility of our school curriculum, school communications, and where possible, with reasonable adjustment, our school site. In adherence to schedule 10 of the Equalities Act 2010 (Appendix A), we will review this policy every three years or in response to an individual pupil's needs with reference to this accessibility plan and the SEND policy. All improvements will be made in accordance to this plan and in 'reasonable time'. This plan should be read in parallel with our SEND Policy and Information Report and Complaints Procedure.

Our Aims

- To increase access to the curriculum for pupils with a disability: to include teaching and learning, the wider curriculum of the school such as participation in afterschool clubs, leisure and cultural activities or school visits and residential visits.
- To improve and maintain access to the physical environment of Redscope Primary School to include physical aids to access education, as appropriate.
- To improve the delivery of communications and information to disabled pupils and their families. The information should take into account pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable timeframe in response to these needs.

Aim One

Increasing the extent to which disabled pupils can participate in the curriculum.

Redscope Primary School will do its best to ensure that the necessary provision is made for any pupil who has special educational needs or disabilities. The staff and governors will work to ensure that all SEND pupils reach their full potential, are fully included within the school

community and are able to make successful transfers between educational establishments. Every teacher is responsible and accountable for the progress and development of all pupils in their class even where pupils access support from teaching assistants or specialist staff. Teaching and supporting pupils with SEND is therefore a whole school responsibility requiring a whole school response. Meeting the needs of pupils with SEND requires partnership working between all those involved -
