

Redscope Early Years

Spring 1 2025 – Home Learning

Arctic Adventures

Ongoing ideas to do at home:

Begin to show 'effortful control'. For example, waiting for a turn and resisting the strong impulse to grab what they want or push their way to the front	Encourage your child to wait for their turn while at the park or in a conversation. Play turn taking games with your child such as snap. "My turn, your turn."
Count in everyday contexts, sometimes skipping numbers - '1-2-3-5.'	Count while doing every day things. Count out the number of forks at the table. While walking along the street, count how many steps to the next lamp post.
Start to say how they are feeling, using words as well as actions	Encourage your child to talk about their feelings and label their emotions. It's great for children to see adults express their emotions too. "I'm a bit sad because one of my friend's isn't feeling well"
Notice some print, such as the first letter of their name, a bus or door number, or a familiar logo	While out for a walk, point out some environmental print like the road signs, number plates. When at the shops talk about the different logos. Can they point out some?

Things to try at home:

- As our topic is Arctic Adventures and we are learning about colder weather and places, can you make your own ice? Perhaps one of your small toys may have got stuck in the ice?
- As Week 5 of this half term is National Story Telling Week, we will be creating our own stories. Can you use your toys/teddies at home to make your own story? Maybe you could even make your own puppet?
- Can you make a cosy den in your home and read your favourite book in cosy space?

We would love to see some photos of you trying some of our home learning. You could upload some photos onto Dojo. We will then be able to discuss this together at REY. Dojo points will also be given for those who take part.
