

Redscope Primary School

Spring 1 Home Learning

Expected Learning

Y6 Revision	<p>Each week, children will be given a reading comprehension and pages out of an arithmetic book for completion. All children have a copy of the revision timetable for spring term. A copy has also been attached</p> <p>It is expected that all children complete these tasks every week. A homework help session will run every Tuesday lunchtime for any children who need support with aspects of their home learning.</p>
Reading	<p>We expect that the children read a minimum of three times a week. The Y6 reading comprehension will count towards one read for the week.</p> <p>Y6s can continue to read independently or to an adult /sibling and may keep their own logs in their planners; however, adults should still sign their planners to confirm that they have read. Children should not be signing their own planners.</p> <p>Children achieve 5 house points for reading three times in a week. For six or more reads, they will get 10 house points.</p>
Spelling	<p>All children have spellings to learn each week. These are recorded in their planner. Please make sure that your child practices them so they become familiar words that can be used accurately in their writing. 5 minutes, three times a week will make a huge difference. They are given on a Tuesday and tested on the following Tuesday. It is also important that children continue to learn the Y3/4 and Y5/6 word lists in their planners as some of these words will feature in the Y6 Grammar, Punctuation and Spelling paper.</p>
Mathematics	<p>Children need to continue to embed their times table facts regularly. Little and often is the key to getting these embedded and if children become fluent in knowing their table facts, this will help in all other areas of mathematics.</p>
