

Redscope Primary School

Spring 2 Home Learning

Expected Learning

| | |
|-------------|---|
| Reading | We expect that the children read a minimum of three times a week to an adult or older sibling. Please record this in their planner. Children achieve 5 house points for reading three times in a week. |
| Spelling | All children have spellings to learn each week. These are sent home in your child's Reading Diary. Please make sure that your child practices. Just 5 minutes, three times a week will make a huge difference. They are tested on a Friday and bring new spellings home. Children can also practise their spellings through online games at https://spellingframe.co.uk/ |
| Mathematics | Children need to practice their number facts regularly. Little and often is the key to getting these embedded. Children's number target for this half term is to learn the multiplication and division facts for the 2 X table. They should be able to recall these facts instantly and understand that these facts may be asked in a variety of ways. E.g. What is 3 times 2? What is 2 multiplied by 2? What is 4 groups of 2? What is 18 divided by 2? What is 20 shared between 2? What is 12 divided into groups of 2? |

Additional Curriculum Task

Please choose at least one item from the menu below and bring the home learning into school by the end of half term. This task can be done with adults. Children can choose more than one if they wish. The more creative the better!

- Plant a seed at home and keep a diary as it grows.
- Find out about the life cycle of an unusual animal and create an information text about it.
- Create a piece of art using pressed flowers.
- Create a 3D lifecycle of the frog or butterfly
- Make some life-cycle based multiplication cards.
- Go on a nature walk and write a list of all the plants and animals you see.
