

Redscope Primary School

Home Learning – Summer 2

Expected Learning

Reading	We expect that children read a minimum of three times a week to an adult or older sibling. Please record this in their planner. Children achieve 5 house points for reading three times in a week.
Spelling	All children have spellings to learn each week. These are sent home in your child's Reading Diary. Please make sure that your child practises. Just 5 minutes, three times a week will make a huge difference. They are tested on a Monday and bring new spellings home each week. Spelling Frame is available to help children practise their weekly spellings.
Mathematics	Children need to practise their number facts regularly. Little and often is the key to getting these embedded. Children's number target for this half term is to learn to count to 100. They should be able to count in rote as well as in two's, fives and tens. The children will also be learning about direction, money and time which can easily be practised in your day to day activities such as buying from the shop, bed time/ morning routines and routes to and from school. A maths homework sheet is also sent home on a Friday to consolidate the children's maths learning that week.

Additional Curriculum Task

Please choose at least one item from the menu below and bring the home learning into school by the end of half term. This task can be done with adults. Children can choose more than one if they wish. The more creative the better!

- Make a World Map and mark where Australia is on the map.
- Research the climate and weather in Australia. How is it similar and different to England?
- Find out about some of the famous landmarks in Australia and present your findings. Which would you most like to visit and why?
- Research the continent Australia and present the information you find.
- Write a report about the animals that can be found in Australia.
